# Together ...

**NEW**

... also means with each other in this case!

In **team games**, you don't just depend on each other, you also have to listen carefully yourself. Being able to express yourself precisely and understandably is just as much a part of it as being listened to.

If **communication is successful**, the **common goal** can be achieved more successfully - be it faster or simply better. But often even that has to be figured out with each other.

The **FUN team game set** includes a variety of different games designed for a wide range of participants. A **sturdy ring binder** contains several illustrated instructions for **various team-building tasks** that are not only fun, but also offer variations. **Let the games begin!**

## The very place for shopping ...

### Shopping can be such a fun!

**Erzi grocery stores** have always been an all-round favourite in nurseries and group play areas. Shops and supermarkets form an essential part of role-playing games as they provide ample space for interaction and communication besides firing the imagination.

By nature, youngsters simply love doing the same things as grown-ups. Unconsciously, they learn to engage with other children and to rely on themselves whilst training their speech abilities, learning to count and to do simple arithmetic.

material: birch plywood, nature

Ding-a-ling - come along in! Play the role of shopkeeper in grand style in your own spacious general store. It's fun to enact everyday shopping situations in this fantastic grocer's shop. Store items can be arranged and set up for realistic trading, selling, bargaining, bartering and lots more. The classical design of the shop with its nostalgic sign add an extra touch of charm to this magical setting. Made in Germany, this exquisite grocer's shop is sturdily built and wear-resistant. The many features facilitate individual array and layout. When setting up the store, the little shopkeeper is given a say in shaping its overall appearance. Where is the shop entrance to go, on the left or on the right? Are the drawers to be arranged on the shelf on one side or on both? Where am I going to hang the doorbell? Shelving spaces, drawer units and hooks simply beg to be stocked with grocery items - large and small - all ready for the customer! The role-playing quality serves to train the child's speech along with intellectual and social development. In addition, the ergonomically adapted size of the shops provides a sound basis for an appealing form of interactivity, whilst promoting motor skills and abilities.

material: birch plywood, countertops laquered  
 Shopping and cooking form part of everyday life and are a realistic experience for children who love this land of make-believe, no matter whether in the grocery store, in the market square, at the snack bar or in the kitchen. Equipped with their own shop / kitchen, the kids experience the time of their lives selling, bartering, swapping, preparing and cooking meals just like proper grown-ups. These experiences are assimilated, developed and consolidated in a playful atmosphere.  
 The Erzi Shop Premium XL scenario can be enacted from any given angle. Additional details, such as conveyor belt, ice compartment, clock and blackboard, make an individual design of the robust shop possible. Adjustable shelves provide an amazing amount of space for accommodating groceries large and small. The dimensions make it suitable for use by several children at a time.

## Latest invention: The Erzi Reversible Barbeque

Erzi's high-quality kitchen landscape has been extended by a small cooking plate top. This serves to enhance our high-quality outdoor cooking and barbeque sets by a similar indoor solution for the nursery play table. See what happens when you turn this small and practically designed table-top grill the other way around. Hey presto! It suddenly becomes a hotplate with fully rotatable knobs.

# Sweets for my sweet!

... delicacies devoid of calories!

... so sweet and cute:

All children are born with a sweet tooth - an accepted fact of life and - quite understandably - an indispensable role-playing game!

We don't need to be told twice about that, do we? So without further ado let's set about creating our own sugary-sweet assortment - all carved from local beech and decorated with certified cool-coloured materials!

**Shop Assortment for the Youngest**

length:..... 12,3 cm      wide: .....12,2 cm  
 height:..... 12,5 cm  
 weight:..... 363 g  
 content: 12 wooden pieces  
 material: beech, coloured laquered

1 apple juice, 1 bottle of water, 1 milk, 1 strawberry yoghurt, 1 cupcake, 1 piece of an apple, 1 banana, 1 carrot, 1 piece of a tomato, 1 slice of toast, 1 slice of cheese, 1 Viennese sausage

Even one-year old children can already learn the first food items with these selected children's toy shop food products. They can be taken, given, recognised and also named. The children will soon want to re-enact the buying and selling of groceries.

Twelve different kinds of food made of wood to play can be placed on small shelves or into baskets or bags and removed again. Children re-enact daily situations and thus learn to deal with different shapes and sizes. All parts in this assortment are suitable for the youngest children, they do not contain small parts that can be swallowed or inhaled. All colours are resistant to saliva and perspiration.

All Erzi products undergo very strict controls allowing our children to play safely!

 content: 1 game board, 5 rotating ghosts (attachable with a turn- and snap-loc fastener), stacking ghosts, wall mount fixture, fastening material, playing and mounting instructions  
 material: birch plywood, laquered; beech, coloured laquered  
 This role-play is suitable for all ages the ghosts appear in different, luminous colours with funny faces when the ghosts are stacked, the game becomes suspenseful. Which ghost will make the stack fall? If the Ghost Board is mounted vertically, the ghosts in total can be stacked the highest.

**info**

Each ghost is designed on a five-finger scheme with one finger fitting in each of the holes. The ergonomic design makes it possible for the ghosts to be used for a whole variety of different therapeutic applications.

For concentration and strategy, children can achieve great success with this variant of the stack falls, however, a stacked ghost remains standing only rarely due to different stacking heights, small and older children can play with the ghost board at the same time the slim form makes it possible to integrate the ghost board into small playing areas as well in the crosswise format, the ghost board is particularly suited for small children up to children next to each other can play with the ghosts or build small ghost stacks here, the storage slots can also be used as grab handles. Arranging the ghosts in the storage slots is a good way to make cleaning up fun

 weight:..... 712 g  
 content: coloured cylinders, counting stick,  
 board, cm, instructions  
 material: birch plywood, nature; beech, coloured  
 laquered

This counting board supports the learning of numbers  
 from 1 to 10. You can insert the right number of small  
 cylinders above the printed numbers. The colour  
 assignments are especially helpful. Simple addition  
 and subtraction tasks can also be performed and  
 double-checked with ease. The counting stick makes  
 the counting itself even more tangible through the  
 individual tracing of the holes. These aids will help  
 the child internalise the numbers more intensively so  
 that they can understand them not only as numbers,  
 but also as defined quantities.

The educational game comes in a colourful printed box  
 for easy storage.  
 Suitable for children under 3 months. Contains small pieces.

material: birch plywood, nature; beech, nature and coloured printed

Our counting towers enable children of pre-school and primary school age to explore numbers through play they help to develop an imagination for quantities likewise, they playfully and simply illustrate number decomposition, simple addition and subtraction, and the concepts of greater than and less than

On the pegboards, numbers to      can be explained with the cubes using four different coloured symbols (star - yellow, triangle - blue, square - green, circle - pink), Enabling the child's eye to quickly grasp and deal with small quantities. The clear symbolism also lets colour-blind children grasp the theme without barriers.

Educational Game Fractions of a Whole

length:..... 50,5 cm      width:.....7,5 cm  
height:..... 14,5 cm  
weight:..... 736 g

content large cube to form a whole, halves, quarters and eighths play mat  
material beech, nature polyester fleece, printed  
constructed from solid beech, this unique system is designed to teach children the various parts making up a whole number. While playing with the three-dimensional pieces in cubes, children learn to distinguish whole shapes and their individual constituents such as halves, quarters, eighths, etc. When advancing to higher primary school grades, they then learn how to express these shapes abstractly in the form of fractions.

This direct learning-by-playing method teaches youngsters the number of different possibilities of forming a cube, say from two halves, one half and four eighths, two quarters and one half, etc.

This educational game is highly recommendable for children with special needs.

1 cube      cm

### info

The system comprises three principal components:

- Each part whole, half, etc is designed as one self-contained solid unit instead of being made up of two pieces stuck together. This enables the formation to be visualized as a whole.
- All components are of the same colour and wood left in its natural state so that they are easily recognizable as forming one single whole.
- Each piece is accorded its own space on the mat. If a cube needs to be formed from four quarters, the child removes each quarter from its mat and places it in the appropriate spot.

material: beech, nature polyester fleece, printed  
 This didactic set helps children to understand basic geometrical principles. By seeing, holding and playing children learn the meaning of bodies, surfaces, shapes, symmetry and relations of solids made of solid beechwood.

Solids are ..... or cm high and cm wide in diameter.

The children learn the basic geometric principles through play they learn the meaning of shapes, size, bodies and surfaces, symmetry and harmony

Children attribute relevant properties to geometric bodies by touching them. Didactic value is upgraded with matching geometric faces on the play mats for better understanding of surfaces, edges and corners.

 weight:..... 2,21 kg

content: 9 feet with different materials and surfaces  
 material: birch plywood, laquered; beech, coloured  
 laquered; polypropylene; polyamide; aluminium; cork;  
 no-slippering pad

Nine foot mounts revealing different materials and surface structures constitute the broad spectrum of this SensoPath product line. Constantly changing stimuli such as warmth and cold, hard and soft or smooth and rough are sensed and learned. Promotion of balance, sense of touch and tactile perceptions are the main issues involved in this eep-fit trail, the setup of which can be linear, circular or varied. Suitable for all age groups. Use is recommended without socks.

Size highest foot: 28 x 14 x 2,26 cm

Warning! Not suitable for children under 36 months. Strangulation hazard!  
 Contains long string.

## info

Step-by-step the SensoPath guides the user through the world of sensory and motor functions. A balancing act is the result, combined with a feeling of poise, a comparison of one's own physical abilities and a great deal more. One foot is deliberately placed in front of the other, stimulating a depth-sensory effect to weak feet. Resorting to a variety of different materials, surfaces and motor challenges serves to train bodily perceptions. An adult-sized foot (size 43/9) is taken as a basis, this making the SensoPath product suitable for all age groups. All materials used are sweat- and saliva-proof, and are tested for toxics or harmful substances. SensoPath units are ideal foot trainers for games, sports and therapeutic applications.

This set of sturdy wooden ball tracks will transform a group into a whole team! When joining forces, all players work hand-in-hand to assemble a long track. The aim is to keep the wooden balls rolling progressively from one point to the next. This calls for pronounced skill and the powers of concentration to react quickly. It also requires constant interaction on the part of the players to prevent the balls from falling on to the floor. Different levels of difficulty are also possible by reducing the tracks. Alternatively players can compete in two opposing teams.

Rocky Rocker

length:..... 42 cm width:.....28,5 cm

 The Rocky Rocker is a game and sport product which  
 can be used for young and old, as single product or as  
 connecting point between two Erzi balancing boards.  
 It corresponds to all current security standards and  
 guidelines and offers nevertheless a design without  
 any screws or nails. The Rocky Rocker is a natural  
 product with love to the details and varied challen-  
 ges to the exercise capacities of the children. The  
 product can be used as stool and sitting or standing  
 balancing seesaw. The seesaw demands from the  
 user teamwork, balance, consideration, patience and  
 coordination.

Rocky Rocker is a playing and sports device that can  
 be used as a stool, a seat and a rock in either kneeling  
 or standing position. In the sitting and kneeling posi-  
 tion, the user may hold onto the rods. When placing  
 an Erzi balancing board in the middle of Rocky rocker,  
 it becomes a rocker for two children with numerous  
 game variations (such as marble track). The rocker is  
 great for walking (not running) over it. Placing a bal-  
 ancing board with one end on the Rocky Rocker and  
 hoo ing this in forms a fi ed ramp catering for a vari-  
 ety of different applications. In most cases, however,  
 Rocky Rocker can be used as a connection of two Erzi  
 balancing boards. The interaction of the connected  
 boards requires and encourages coordination and  
 concentration skills. In this variant, both Erzi balancing  
 boards should be suspended by the appropriate rods.

# SLACKSPOT

the clever slack system for children

## Slackspot - a genuine Erzi quality product

Slackspot supports the motoric development of children, leads to self-assurance in everyday movements, and permits balancing as a team. The low balancing height of 10 cm provides for safe balancing without help - fall protection is not required. The adjustable belt tension and stopper bases on the bottom are only a few features that characterise the product. Whether used privately, in daycare centres, at physical therapy practices, or in foyers and waiting rooms, Slackspot does not require additional anchoring and can be integrated into many environments. Slackspot is delivered in a dismantled form and can be assembled using the provided tool without a problem.

MOUNTED WITH ONLY A FEW FLICKS OF THE WRIST

### info

The use of Slackspot as a training and therapeutic device can support strengthening, sensomotoric training, the improvement of coordination and balance, or posture training.
